- 1/4" bead coverage rate: 50 lin. ft. per cartridge
- Substrate: Porous and Non-Porous

**Installation** *(Visit our website for complete Installation instructions)*
Rubber Accessories are designed for interior use only with temperatures maintained from 65°F (19°C) and 85°F (30°C). The flooring installer must inspect all material for manufacturing imperfections and irregularities prior to installation. Before installing, confirm accessory placement and the placement of adjoining material per design specifications.

**Maintenance** *(Visit our website for complete Maintenance instructions)*
Ensure that adhesive has cured for the recommended period of time prior to maintenance. Sweep, dust, mop, vacuum or wipe material to remove any dirt, dust or debris. Mix 2-4 ounces of our recommended cleaner per gallon of clean, potable water. Use a clean mop, towel or cloth to apply cleaner to material. If necessary, scrub material while wet using a 22 gauge soft bristled scrubbing brush. Use an auto-scrubber, wet vacuum, clean mop or clean towel to remove any and all excess cleaning solution. Rinse area with clean, cool water and allow material to dry entirely.
