Substrate: Porous

C-630 Contact Adhesive

Unit Size: 1 Quart
VOC: 0.0 g/l
Coverage Rate: 20-40 sq. ft. per unit or 120-140 lin. ft. per unit.
Substrate: Non-Porous

Installation* (Visit our website for complete Installation instructions)

All material is to be delivered to the installation location in its original packaging with labels intact. The installation area, unboxed wall base and adhesive are to be maintained between 65° (19°C) and 85° (30°C) for at least 48 hours before installation, during installation and thereafter. Proceed with the installation only when the conditions are proper and correct. Inspect all material for proper type and color. A bond test should be performed at least 72 hours prior to the scheduled installation to ensure the surface is suitable and there should be extreme difficulty in removing the wall base from the surface.

Maintenance* (Visit our website for complete Maintenance instructions)

Vinyl wall base can be cleaned with a neutral pH cleaner and a soft wet cloth.
