### Installation\* ([Visit our website for complete Installation instructions](#))

All materials are to be delivered to the installation location within 48 hours of installation in its original packaging with labels intact. Store products in a dry area protected from the weather with temperatures maintained between 65° F (19°C) and 85° F (30°C). DO NOT stack pallets. Remove all plastic wrapping and strapping from the pallets and un-box all material in the installation area at least 48 hours prior to installation. Stair Treads must be stored horizontally and placed on a smooth, level, dry surface, which supports the entire width of the stair treads. Ensure substrate is suitably prepared prior to installation.

### Maintenance\* ([Visit our website for complete Maintenance instructions](#))

Sweep, dust mop or vacuum the stair treads to remove dirt and other particulates.
