TAPERED NOSE

Many Roppe treads have a tapered nose for a clean fit. They help reduce tripping hazards while providing a better finished look.

RELIEF CUT

Many of our treads include a molded relief cut that aids in the installation of our treads on today's angled stairs.

Custom lengths can be ordered in 6" increments up to 9 ft. (2.73m) in Textured, Hammered, Vantage, Square and Diamond designs.

FOR VISUALLY IMPAIRED

Designed to improve safety for the visually impaired, Roppe stair treads are available with grit strips and in contrasting colors. In addition, rubber detectable warning tiles help signal changes in elevation. Available in 3/4" or 2" width.

TREAD ACCESSORIES

Coordinating rubber risers, stringers and landing mats/tiles do not feature the addition of DuPont™ Kevlar® Fiber since the standard formulation shares a life-cycle of approximately 40-years. There is no need to have a formula that is more durable.

RUBBER & VINYL RISERS

Risers cover the rear edge of tread to eliminate labor-intensive hand trimming. They are sized to fit most stair risers, but can be trimmed to fit any height (7" or less) or length. Risers are available in 7" x 50' vinyl coils and 7" x coordinating rubber tread length pieces. All risers are .100" thick. Coordinating colors for each tread line are available at a Single Price Point.

RUBBER & VINYL STRINGERS

Stringers are available in 10" x 50' vinyl and 10" x 72" or 12" x 72" rubber, and in all of the colors in coordinating tread lines at a Single Price Point. Stringers are .080" thick.

RUBBER LANDING MATS/TILES

Note: Rubber warning tiles can be used to alert the visually impaired to approaching stairways. Size: 1/8" gauge, 12" x 12" tiles. In addition, all Roppe 50cm tiles can be used on landings. Diamond and Smooth landing mats are available in 27" x 27", plus 36" x 36" in Smooth.
